

## Game Change Protocol & Responsibilities

*The following is to be used as the league directive for any games changes that will be utilized for the season.*

1. All scheduled games are to be played as scheduled and any reference to games needs to be done based on the assigned game #. The AMBFHL website is the official scheduling reference for all league games and once it is in place games numbers will not change.
2. Any game time changes are to be communicated to the involved Teams, AMBFHL League Representatives and then the AMBFHL President for approval ([jkashman@shaw.ca](mailto:jkashman@shaw.ca)). (Just because it has been said out loud, doesn't mean it is a done deal; please see Point #3)
3. Any proposed games changes must be submitted to the AMBFHL President and Vice-President by the AMBFHL League Representative, the other Association involved must be copied along with an alternate reschedule date, time and location. Once this is submitted and agreed on by both Associations the league will then ratify the change and adjust it on the web site.

**The AMBFHL Executive and designated League Reps must be involved for all game changes throughout the 2012 - 2013 Season.**
