

## [How do I create an Online Registration Account and why is it important?](#)

### **Why do I need an Online Registration Account?**

The purpose of setting up this account is three fold:

1. To ensure that your information is secure
2. To provide you with your own web page where you are able to login, change your password, re-print your receipt, and keep track of what you have registered in.
3. To be able to login with the same account, season after season.

\*\*\* If you have used Hockey Canada's Online Registration System to register for another organization, you may use the same account to register for [Red Lake District Minor Hockey](#). **BUT YOU MUST USE THE WEB LINK PROVIDED BY [Red Lake District Minor Hockey](#).**

### **How do I create my Account?**

If you have registered online with [Hockey Canada](#) in the past, you would have already created an account with your email address and password while setting up your Online Registration Account. You can simply login with that same account to register in this season.

If you have never registered online with Hockey Canada, you can create an Account by accessing the Online Registration website and clicking on "First time? Register Now!" under "Other Options".
