

1. The field is divided into four (4) sections as noted by #1, #2, #3 and #4. All sections RUN fence to fence and start on the far right side (when facing the school). Work with your other coaches should you need to modify in certain coaching situations.
2. There are 4 nets at the field, so each coach gets use of one per practice. Please make sure you are rotating the nets around each practice.

**Coaches are reminded of the field usage rules:**

1. no spectators permitted inside fence (only persons participating in practice and coaches)
2. no food (of any kind) or drink (except water) is permitted inside the fence
3. coaches must ensure that all garbage and items left by team are taken away after use of field
4. Coaches are asked to leave the field on the scheduled time, meetings or talks can take place outside the fenced area to enable next team to have their full practice time. Lights can be accessed in the box on the side of the school building (to the right of the BCIT writing on the school wall (the 3303 key will open the box), lights will turn off automatically at 10:00 but if there is no one at the field when you leave - turn off the lights.
