

Report for Dec 10<sup>th</sup> meeting:

- Game pucks are kept in the Female Dressing room freezer. This seems to be working out fine. There seems to be a steady supply of pucks in there.

- Name bar issues with some teams that were ordered through Bauer have been discussed with Brad and Rob from Bauer and are being corrected. I'm not convinced at this time that Bauer is the best option for Name bars but will get more input from Brad after the corrections are made. Cindy also had her two cents to say about them as well and Jason is aware of her concerns.

- No other major concerns have been brought to my attention so nothing else to report at this time.

Greg Risler
