

VP Operations Report.

Our Female teams who are going to provincials now have their official provincial Rosters... they have been sent to the team representatives.

We do not yet have the Male Provincial Rosters approved, once those come in I will get them to the teams.

There has been little action on the registration side. We had one family move out of town, so the player was transferred out of our association.

Jan 10th, 2016 was the last date we could make any changes to the player rosters so that window is now closed so there can be no movement of players, no new players coming in, no changes in affiliations. The season is sealed.

I have heard no follow up on the Ponto boy since our last meeting, so he has not been registered with us, nor can he be as the deadline for late registrations of players is now passed.

We can however still add or delete coaches to rosters, but this must be done through the Zone Admin as I no longer have access to making any changes on the rosters.

Overall it has been another typical uneventful season on the registration side of things.

Total registered this Year 268.
